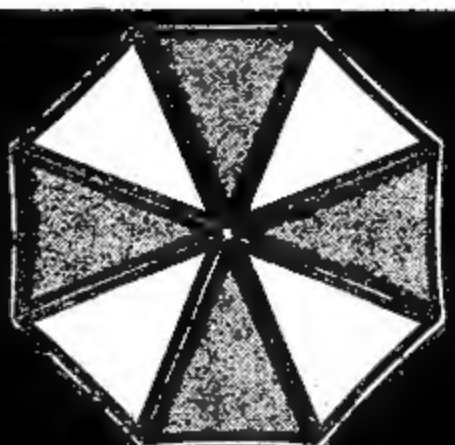
Zombification.

Biohazard Intervention Group

Jill Valentine

A senior member of S.T.A.R.S. Belgonging in the same team as Chris, she is also involved in this affair.

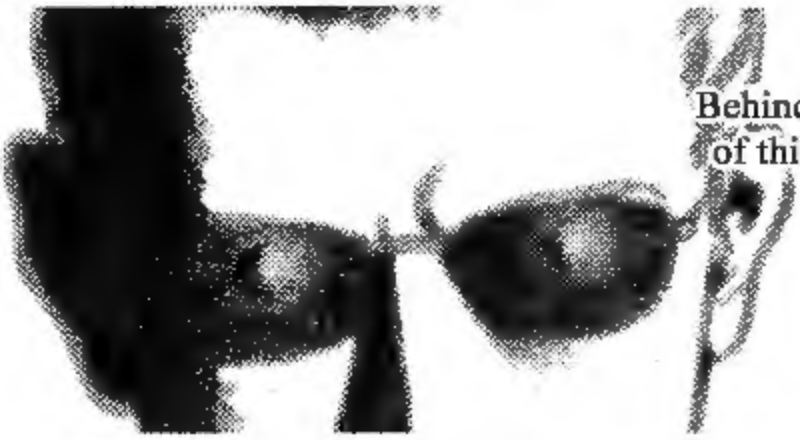
Umbrella



At the source of all this is the huge laboratory firm...

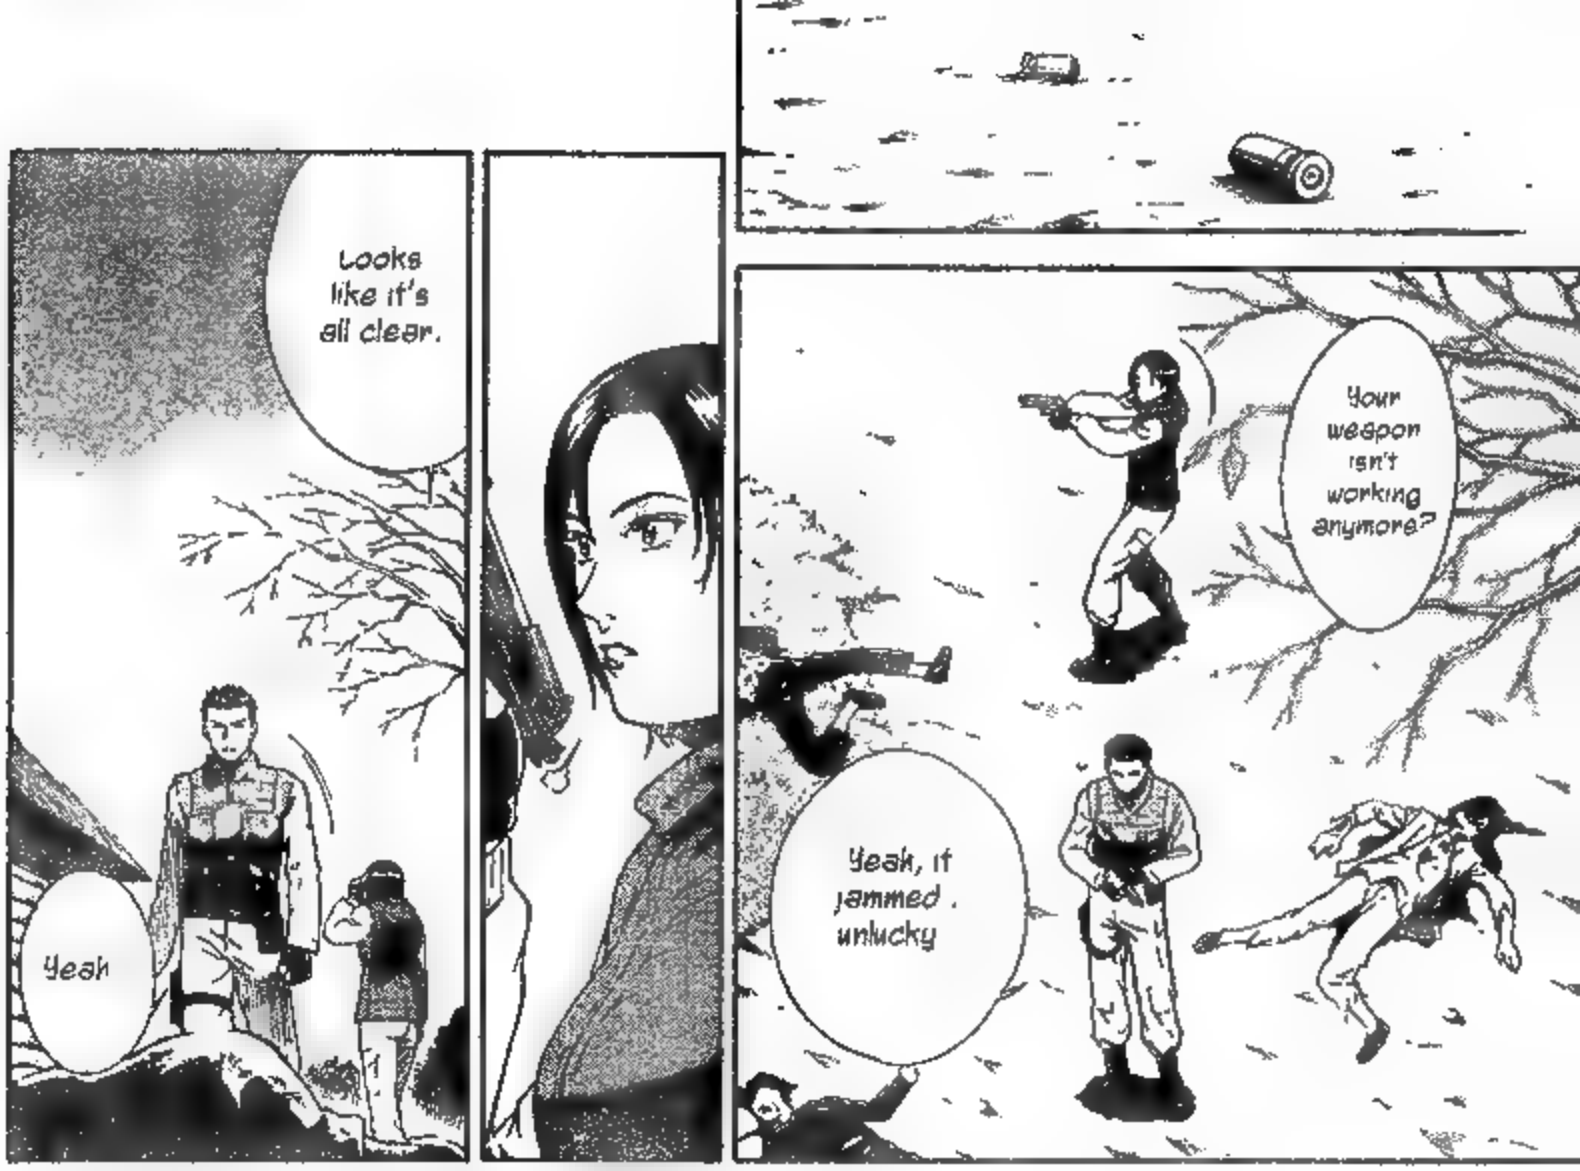
Umbrella had disappeared from the surface of the Earth.

We had lost close friends in this tragedy...

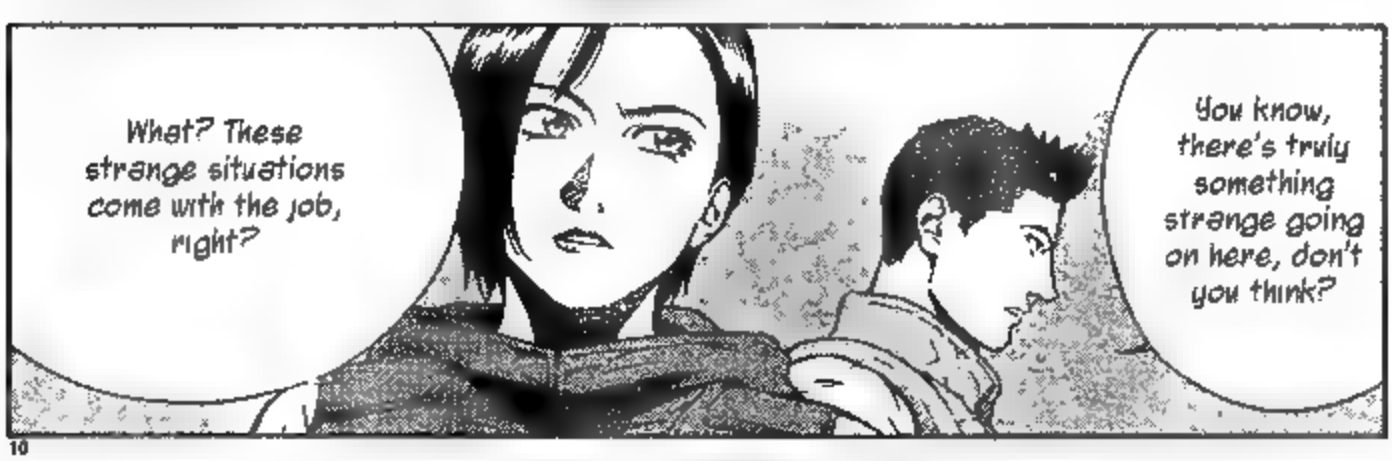


Behind all of this...

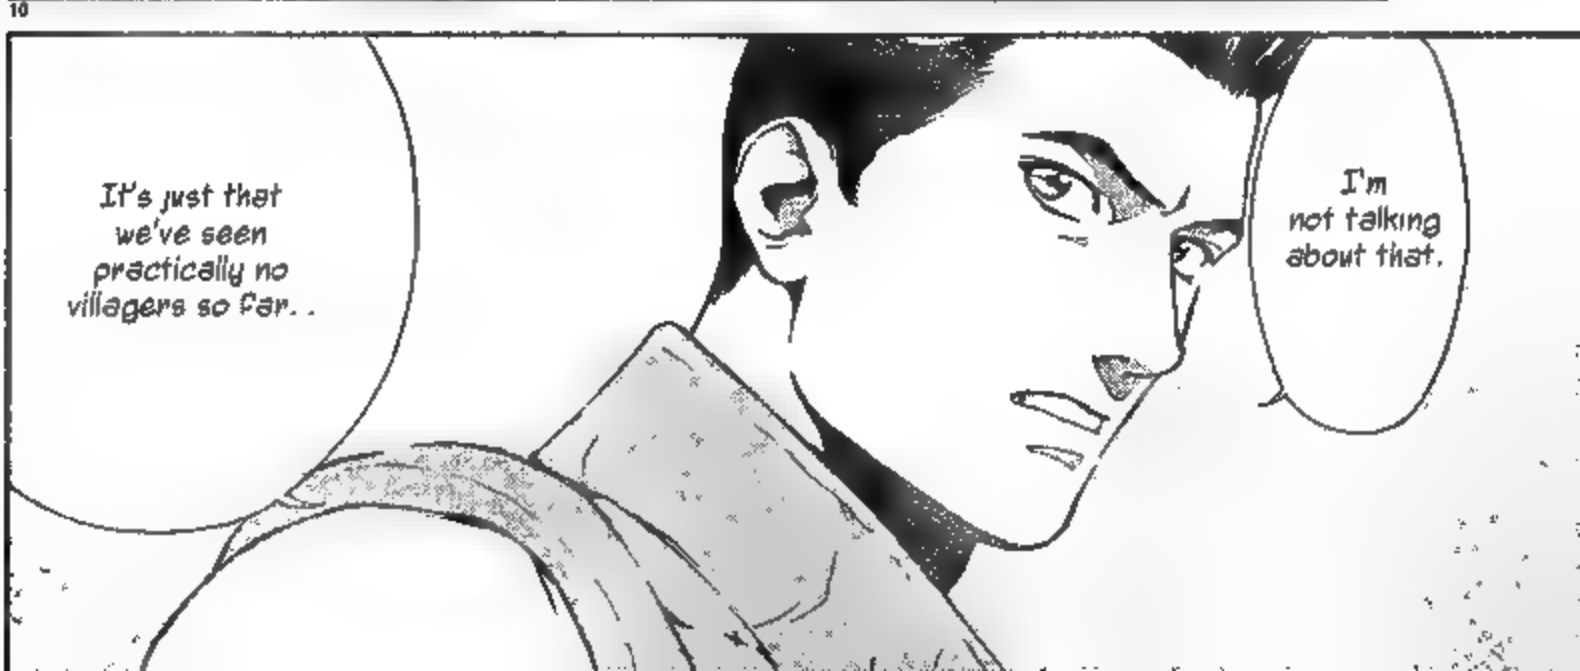
Is always the shadow of this man!!



Looks like it's all clear.
Yeah
Your weapon isn't working anymore?
Yeah, it jammed . unlucky



What? These strange situations come with the job, right?
You know, there's truly something strange going on here, don't you think?



It's just that we've seen practically no villagers so far. .
I'm not talking about that.

A little girl ?

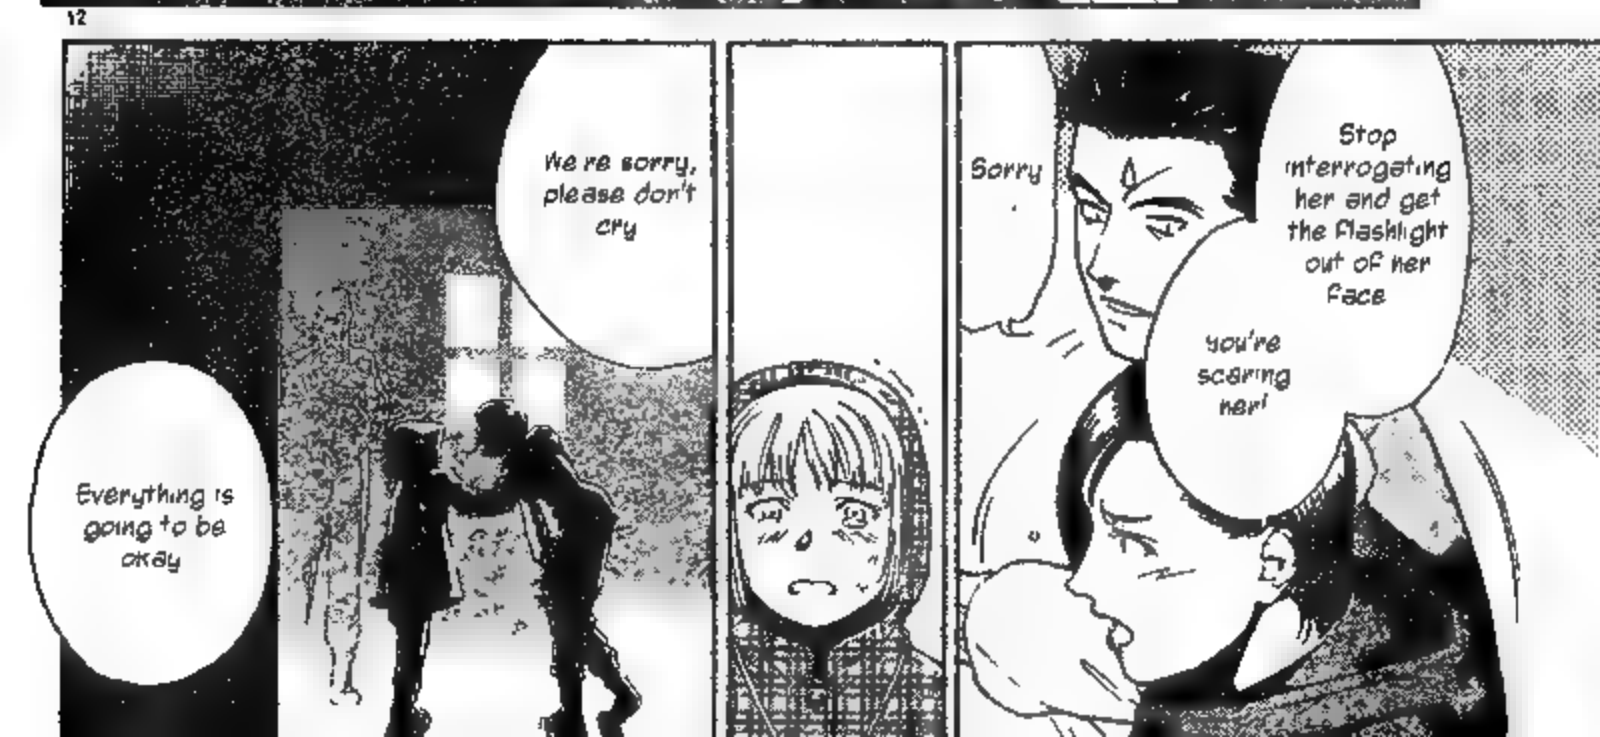
Is everything okay?
You're alive!



We're sorry, please don't cry
Everything is going to be okay
Sorry
Stop interrogating her and get the flashlight out of her face
you're scaring her!

What
makes
me
sure?

What do you
mean, what
about me
and? Do you
think we
can just put
our hearts in
boxes?

And
what's
all

I'm
sure

I'm sure
that the
villagers didn't
deserve

And if there are
other people who
can be saved the

WESKER!!

So it was you!

WESKER IS HERE, WHERE THE VIRUS IS, IS HE WHERE TO KILL CHRIS AND JILL?

The tragedy.

I'm sure you're the one behind it!

Then why are you here?

The infection of this village by the virus was a mere accident

Exactly like the other times as well a mere accident

Albert Wesker
Former S.T.A.R.S. captain

Developer of the T-Virus and a specialist in germ warfare. He secretly spread around the virus. A mysterious man.

Don't misunderstand

What?!

Nothing that concerns you

Wait!

I could tell you that this village is cursed, but

Right now

!!?

What's going on?!

The floor collapsed!

Tsk
That's a result of your explosion in the silo...

Umbrella's bio-organic weapons!

There are

Wesker, what's the meaning of this?

The collapse must have revealed the secret the underground was holding

What are those creatures doing in the underground!

So there they are

The Delta Hunters we had lost track of

We have no further use for this place

There has been a change in plans

Wesker, stop!

I have no more weapons

I'll let you deal with the secondary tasks, Chris.

Once again.

Chris!

Get to the car!

"This village is cursed" he must know something!

Hey there, that's his style!

No idea! What's For sure is that he's landed us in a mess once again just to get something!

What the hell is going on here anyhow?

Ann, get in!

Eat this!

I know, we have to hurry up to catch him!

He's gone to the village!

GO HIDE!

.....!

We must keep the pressure on them!

Wesker, as well as Umbrella, is dangerous

PAPA!

KEEP THIS

DAD HAS ALWAYS TRIED HIS BEST TO PROTECT YOU

PAPA?

BEFORE WE ALSO..

THE VILLAGE IS ALREADY CURSED

THAT PENDANT WILL PROTECT YOU.

SHOULD AN EVIL PERSON COME,

No doubts, this is the house

A safe!

So here you are!

You sure are tough

Tell us why you've come to this village!

This time it's over Wesker!

The B.O.W (bio-organic weapon), as well as the virus antibodies, were stored in this one

In order to store and scatter the riches of our group.

Throughout the world, Umbrella has built several warehouses...

Were the villagers working there?

That warehouse was under the sea?

However, there is still some treasure left

From this place he monitored all of the area

Yet, because of the collapse, those underground research outposts have become out of reach

To coordinate their work, there was someone who lived here.

A member of Umbrella

I know

Chris Then

If you want to stop me with that weapon, I'll be by me, just try it

Chris

Enough talking! What will you do?

Anne, don't move!

!!!

Is this

What you want?

Here... It's my house

Uh

It's okay

Bastard!

If you shoot, you could kill her

AH!

Interesting

Let's check it at once

Um

What?

So, it was her who held the key

Whatever belongs to Umbrella that destroyed the village

It's inside this safe!

Anna, come!

Don't do anything rash now

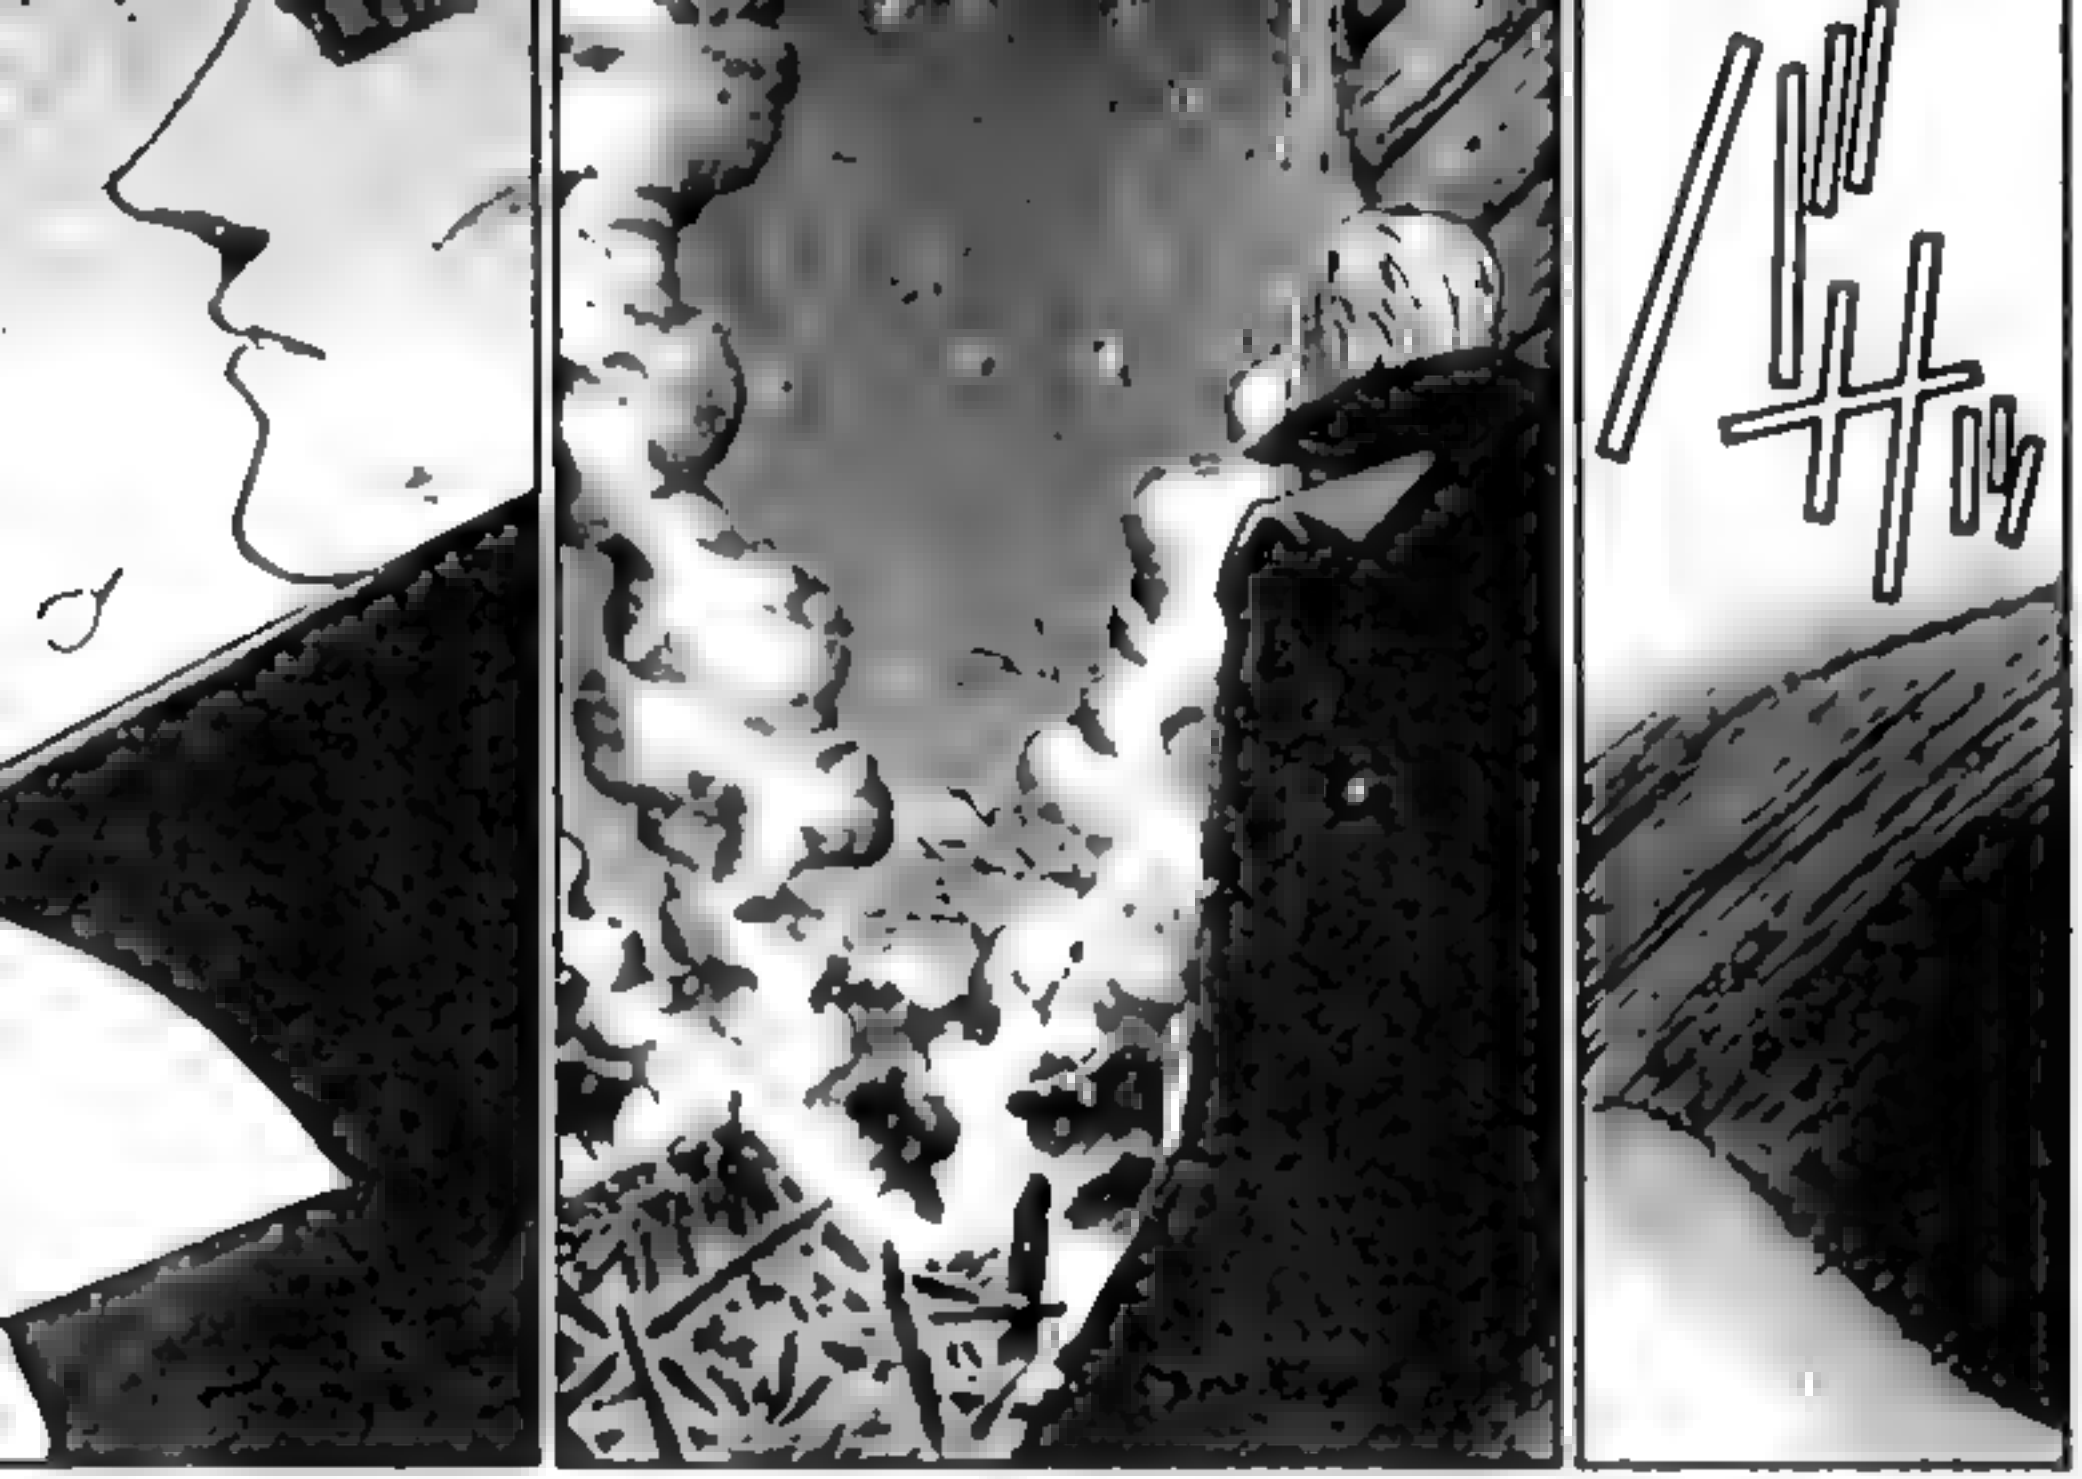
!!?

What?

"THAT PENDANT WILL PROTECT YOU"

Dad!

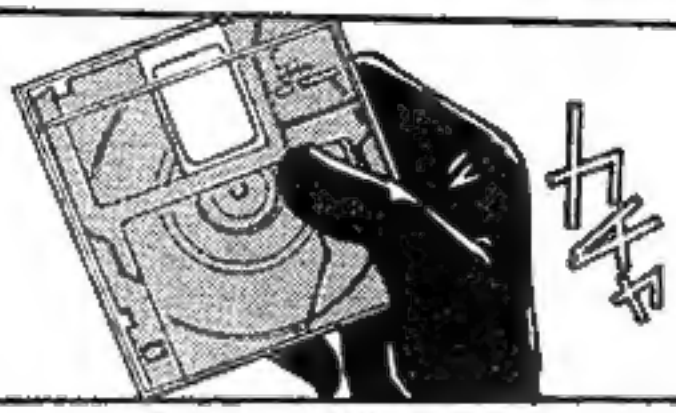
Dad



All the days has gone up in dawns
Sir?

ドン

ドン



But in that wasn't the only treasure in that house.

That really is a shame.

The plans of the "site".

We'll be able to start anew!
